## Organization

The scope of the 2nd TMM\_CH Conference is to present the latest developments in research and innovation that identify novel trends to build an interdisciplinary approach to conservation and holistic digital documentation of cultural heritage. The utilization and reuse of monuments, historic cities and sites, forms the framework of a sustainable preservation of cultural heritage, in accordance with the principles of circular economy; in terms of respect and protection of values, materials, structures, architecture and landscape; with an informed society, able to participate effectively in the policies that will design and implement the new strategies required.

Sharing knowledge, experiences, and recommendations about sustainable cultural heritage approaches and practices at a moment of great risk and a time of renewed possibilities, will reorientate conversation to explore the current conditions and contours of the World in crisis recapturing itself through Culture, and relaunching development.

The 2nd TMM\_CH Conference is organized under the patronage of H.E. the President of the Hellenic Republic, Ms Katerina Sakellariopoulou, by the National Technical University of Athens in cooperation with the Technical Chamber of Greece and the participation of distinguished scientists and representatives of major International and European Organizations, Associations, networks Universities and Research Centers in the field of cultural heritage preservation.

The conference will be English speaking and held at the Eugenides Foundation in Athens, Greece. It will be organized in a hybrid format with preferable physical presence and feasible virtual attendance in case of onsite unavailability. The Eugenides Foundation operates in full compliance with all safety and protection measures regarding Covid-19 as they are set by the Greek authorities.
